**To:** Nature Conservation

**Subject:** Wildlife Act Revision

To whom it may concern,

May I please direct your attention to this, "Upland habitats in Ireland have suffered a massive loss of biodiversity in recent decades due to misguided public policy, unregulated turf extraction, over-grazing by sheep and uncontrolled burning."

<http://www.iwt.ie/irish-wildlife-trust-calls-for-all-burning-of-uplands-to-be-banned-under-any-revision-of-the-wildlife-act>

I fully support the call of the Irish Wildlife Trust on this and ask that you consider their stance.

Kind regards,
