I would like to make a submission to the Public Consultation - Wild Bird Derogations ref: Urban Seagull Issues.

I am making as a submission as the seagulls in the area I live is out of control between the noise and the dirt they are leaving around. The faecal mess on play areas for children, on street paths, school areas and food premises is a major public health issue.

Also the area I live I had an issue with with a neighbour constantly feeding the seagulls throughout the day and they swooped down at my father in law who was cutting the grass at the time. Another incident was I was in the garden with my baby daughter who was only a few months old at the time and the seagulls swooped down at her and only I was there, it would have been a serious incident.
