	1/11/23	2	Tag 120 + 147 escaped
			Final day called off following consultation with ice reps present due to the nature of coursing that took place on wed 1st of November where the hares did not take the escape at first time of asking. It was considered that the change of being the hares in proximity to the hare park was likely cause for the pleasure (The back run was water logged in parts, rendering it unsuitable). The Lega NPWS ranger was contacted once the decision was made and release was agreed for November 2nd
