General Comments:

Fri 140122 NPWS present [redacted] Injured hare checked by vet and then released. This hare had turned and run into the track wire during course and was subsequently hit.

Sat 150122 NPWS present-[redacted] The vet informed CR [redacted] that the two other hares that were hit the previous day were fine.

Sun 160122 NPWS present – [redacted] The two hit hares seemed not to have been injured.

Hare pinned in 4th course of 2nd round of 2021 Kilcreevin/Ballymote Derby Trial stake having returned back out of the escapes. CR [redacted] observed this hare being treated by the vet and then released at the park at the first interval.

There was a second hare pinned in the 2nd course of the semi final of the Tubbercurry Derby Trial Stake & Traditional cup. Despite the Stewards racing onto the field, CR [redacted] observed this hare being **thrown up in the air with its leg in the grip of** one of the dog's whose muzzle had fallen off. A request was made to see the animal at the 2nd interval. The hare that was produced seemed ok apart from an old healed- over foot injury. It was examined by the vet who gave it the ok. There was a total of 66 hares released on Sunday evening (below).

Main Release took place on Sun evening 160122 (weather dry, calm, overcast, cool):
