To whom it concerns.

The control of magpies,greycrows should be allowed to continue. Every year I see these two predator species raiding songbird nests on my land. I've also had to euthanise two ewes due to their eyes being picked out by the above species.

My local tillage farmer also contacts me, without fail, every year to control pigeon & crows that are attacking his crops. Control of these species should also be allowed to continue.

Yours sincerely
