I would like to submit the following suggestions In regards to the public consultation on Wild Birds Declaration 2022-2023.

1. Magpies are a non native species which cause widespread damage to native species. I firmly believe that the Wild Birds Declaration should allow for the control of Magpies for the protection of flora and fauna in particular, all year round.
2. Both electronic and manual callers should allowed for use during the control of magpies, grey crows, rooks and jackdaws, under the wild birds Declaration.

Kind Regards,
