**Derogation Number  
DER-BAT-2026-143**

**EUROPEAN COMMUNITIES (BIRDS AND NATURAL HABITATS) REGULATIONS, 2011  
(S.I. No 477 of 2011)**

**DEROGATION**

Granted under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations 2011, hereinafter referred to as “the Habitats Regulations”.

The Minister for Housing, Local Government & Heritage, in exercise of the powers conferred on him by Regulation 54 of the Habitats Regulations hereby grants to **Donegal County Council of National Roads Office, Drumlonagher, Donegal Town, County Donegal, F94 DK6C** a derogation. It is stated that this derogation is issued:

- A. In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment
- B. As there is no satisfactory alternative, and the action authorised by this derogation will not be detrimental to the maintenance of the population of **bats** referred to below at a favourable conservation status in their natural range.

This derogation authorises the following:

1. Roost disturbance
2. Actions authorised within the derogation

The derogation is issued in respect of the following **bat species**:

- **Daubenton’s Bat**                      **Myotis Daubentonii**

### Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **the River Derg railway bridge between the N15 and Lough Mourne, approximately 9.7km southwest of Ballybofey/Stranorlar, County Donegal for Donegal County Council**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time. In addition, the Minister reserves the right to revoke the derogation where updated information indicates that the basis upon which the derogation was granted has materially changed.
4. The mitigation measures outlined in the application report (**Barnesmore Gap Greenway Bat Derogation Licence Supporting Information**) together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **5<sup>th</sup> March – 31<sup>st</sup> December 2026, inclusive**.
6. The works will be supervised by bat ecologist(s): **Rachel Heaphy**
7. If this derogation addresses works that are subject of a planning application, no such works permitted under this derogation can occur until planning permission is granted.
8. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
9. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
10. The local **NPWS District Conservation Officer – James Hegarty**, [james.hegarty@npws.gov.ie](mailto:james.hegarty@npws.gov.ie), must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
11. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns form and must be submitted to the NPWS **within four weeks of the expiry date of this derogation**. Included with the Returns form, a report will also be submitted to [wildlife.reports@npws.gov.ie](mailto:wildlife.reports@npws.gov.ie) detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return.**

### Derogation Assessment

**Name of Applicant: Donegal County Council**

**Location/Name of Project: Abandoned railway bridge over the River Derg between the N15 and Lough Mourne.**

**Tick the following prohibition as chosen on the application:**

(a) Deliberately capture or kill any specimen of the relevant species in the wild	<input type="checkbox"/>
(b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration	<input checked="" type="checkbox"/>
(c) Deliberately take or destroy eggs of the relevant species in the wild	<input type="checkbox"/>
(d) Damage or destroy a breeding or resting place of such an animal, or	<input type="checkbox"/>
(e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive.	<input type="checkbox"/>
(a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or	<input type="checkbox"/>
(b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive.	<input type="checkbox"/>

#### Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason the applicant claims should be applied to the derogation

(a) In the interests of protecting wild flora and fauna and conserving natural habitats,	<input type="checkbox"/>
(b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property	<input type="checkbox"/>
(c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	<input checked="" type="checkbox"/>
(d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or	<input type="checkbox"/>
(e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	<input type="checkbox"/>

ii. Test 1: Conclusion

Please tick the following where it applies:

There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:**

The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) *‘in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment’* as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C.

As outlined on page three of the accompanying report, the derogation is required to assist with proposed works at River Derg Railway Bridge, located between the existing N15 National Road and Lough Mourne in Co. Donegal.

The objective of the works is to repair the railway bridge to facilitate its use for the Barnesmoore Gap greenway. The report highlights the ‘Strategy for Future Development of National and Regional Greenways’ and notes one of the strategies objectives is “to increase the number and geographical spread of greenways throughout the country over the next ten years.” The report also highlights how the proposed Greenway will improve connectivity and provide a “recreational trail linking Donegal Town to the ‘twin towns’ of Ballybofey/Stranorlar in the south of County Donegal” attracting both local and international users and providing sustainable recreational tourism.

The applicants have provided evidence as to the nature and scale of the overriding public interest reasoning and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2. |

### Test 2: Absence of a satisfactory alternative

Please tick the following where it applies and add a comment below to support the recommendation:

The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):**

The documentation submitted by the applicant has been reviewed, including the evidence for alternative solutions. The purpose of the derogation is to allow the following activity to take place: Repair of the River Derg Railway Bridge, located between the existing N15 National Road and Lough Mourne, approximately 9.7km southwest of Ballybofey/Stranorlar in Co. Donegal, as part of the development of the proposed Barnesmore Gap Greenway.

The specific situation that needs to be addressed is: As outlined in section 3.3 of the accompanying report (pages v-vii), there is a cavity present in the bridge structure, which has been identified as a bat roosting site. Section 4 (pages ix-xi) of the report outlines proposed repair works on this bridge which include vegetation removal, regrouting and repointing, localised masonry repair, parapet replacement and surfacing works. The application for a derogation relates to the prohibition: Deliberate disturbance of these species particularly during the period of breeding, rearing, hibernation and migration.

The alternative solutions suggested by the applicant are:

1. “Do-Nothing” scenario: This would involve not developing the greenway at all. This would result in a lost opportunity to provide a recreational transport link for commuters and leisure cyclists, pedestrians and impaired mobility users between the town of Donegal and Ballybofey/Stranorlar. The provision of a greenway in this location will provide enhanced access to the wider region, enticing users to explore its surrounding towns and villages and to further develop sustainable tourism within the area.
2. Construction of a new bridge: This would require the construction of a new bridge which would impact on the surrounding habitat and the river corridor, requiring a new watercourse crossing over the River Derg, including new foundations and a new section of the greenway to tie into the new bridge.

The applicant has provided satisfactory evidence that alternative solutions have clearly been considered. As outlined on page xii of the accompanying report, two alternative solutions, including the “do-nothing alternative” were examined by the applicant.

Based on the assessment of the application documentation, it is regarded that the applicant has considered all available alternative solutions and at this time no other alternative solutions are apparent.

Having weighed the possible solutions to solve the applicant’s problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

**Test 3: Impact of a derogation on conservation status of the species**

Please tick the following where it applies and add a comment below to support the recommendation:

The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range.	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)**

A small Daubenton’s roost (2 bats) is present within one arch of the bridge in question. This species is widespread and common in Ireland and is in favourable conservation status.

Suitable and proportionate mitigation has been proposed. The mitigation measures ensure that the existing roost remains protected during the works, and will be available for re-use once works have been completed.

Providing these mitigation measures are implemented, I am satisfied that the works will not be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

**Derogation decision**

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

**Tick box where appropriate:**

There is no satisfactory alternative

and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats

(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,

(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,

(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or

(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.

**OR This application has been refused as one or more of the conditions set out above have not been met**

The following conditions should be attached to the derogation:

- 1.
- 2.
- 3.
- 4.

[add additional conditions where required]

Signed:

Date: March 5, 2026
