**Derogation Number
DER-BAT-2026-149**

**EUROPEAN COMMUNITIES (BIRDS AND NATURAL HABITATS) REGULATIONS, 2011
(S.I. No 477 of 2011)**

DEROGATION

Granted under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations 2011, hereinafter referred to as “the Habitats Regulations”.

The Minister for Housing, Local Government & Heritage, in exercise of the powers conferred on him by Regulation 54 of the Habitats Regulations hereby grants to **Helen Mulholland of Sazerac of Ireland ULC, Hazelwood, Sligo, County Sligo, F91 Y820** a derogation. It is stated that this derogation is issued:

- A. In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment
- B. As there is no satisfactory alternative, and the action authorised by this derogation will not be detrimental to the maintenance of the population of **bats** referred to below at a favourable conservation status in their natural range.

This derogation authorises the following:

1. Roost disturbance
2. Actions authorised within the derogation

The derogation is issued in respect of the following **bat species**:

- | | |
|-------------------------------|------------------------------|
| • Brown Long-Eared Bat | Plecotus Auritus |
| • Natterer’s Bat | Myotis Nattereri |
| • Soprano Pipistrelle | Pipistrellus Pygmaeus |
| • Leisler’s Bat | Nycatalus Leisler |
| • Whiskered Bat | Myotis Mystacinus |

Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **Hazelwood, Sligo, County Sligo, F91 Y820 for Helen Mulholland**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time. In addition, the Minister reserves the right to revoke the derogation where updated information indicates that the basis upon which the derogation was granted has materially changed.
4. The mitigation measures outlined in the application report (**Building Conservation and Development Works at Hazelwood Demesne, Co. Sligo**) together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **26th March – 31st December 2026, inclusive**.
6. The works will be supervised by bat ecologist(s): **Caroline Shiel**
7. If this derogation addresses works that are subject of a planning application, no such works permitted under this derogation can occur until planning permission is granted.
8. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
9. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
10. The local **NPWS Conservation Ranger – Donal McWeeney**, donal.mcweeney@npws.gov.ie, must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
11. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns form and must be submitted to the NPWS **within four weeks of the expiry date of this derogation**. Included with the Returns form, a report will also be submitted to wildlife.reports@npws.gov.ie detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return.**

Derogation Assessment

Name of Applicant: Helen Mulholland

Location/Name of Project: Hazelwood, Sligo, County Sligo, F91 Y820

Tick the following prohibition as chosen on the application:

(a) Deliberately capture or kill any specimen of the relevant species in the wild	<input type="checkbox"/>
(b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration	<input checked="" type="checkbox"/>
(c) Deliberately take or destroy eggs of the relevant species in the wild	<input type="checkbox"/>
(d) Damage or destroy a breeding or resting place of such an animal, or	<input type="checkbox"/>
(e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive.	<input type="checkbox"/>
(a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or	<input type="checkbox"/>
(b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive.	<input type="checkbox"/>

Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason the applicant claims should be applied to the derogation

(a) In the interests of protecting wild flora and fauna and conserving natural habitats,	<input type="checkbox"/>
(b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property	<input type="checkbox"/>
(c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	<input checked="" type="checkbox"/>
(d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or	<input type="checkbox"/>
(e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	<input type="checkbox"/>

ii. Test 1: Conclusion

Please tick the following where it applies:

There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:

The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) *'in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment'* as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C. As outlined on page three of the accompanying report titled "Bat Mitigation Strategy", a derogation is required for proposed works at Hazelwood House, Hazelwood peninsula, Co. Sligo.

The objective of the works as outlined involves the renovation of Hazelwood House as a visitor's centre, and the expansion of the whiskey production facility currently on site. The report further outlines on page eight the developments that will take place over a ten-year period including the refurbishment of Hazelwood House to include retail and office use, the provision of a new café and reception area in the stable yard, car park, playground and conservation of the walled gardens. In relation to the whiskey production facility, the report notes the expansion of the distillery capacity with the provision of new warehousing areas and storage buildings.

These proposed developments will allow for the conservation of the protected structures on the site while providing social and economic development for the local and regional community.

The applicant has provided evidence as to the nature and scale of the public interest including those of a social or economic nature for the proposed works and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2.

Test 2: Absence of a satisfactory alternative

Please tick the following where it applies and add a comment below to support the recommendation:

The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):

The applicant has sent in a detailed mitigation strategy to accompany this licence application. The work is to be completed before any possible return of bats and before the breeding season in mid-April to early May.

The work will be supervised by Dr. Caroline Shiel, a highly experienced bat ecologist. The finished roof will allow the bats to return to roost in the new structure and so have minimal impact on their breeding roost. The applicant has applied for similar licences in the past and has carried out restoration work at the site which is very sympathetic to the requirements of a bat roost.

The applicant has provided alternative scenarios.

1. Do. Nothing which would lead to a further degradation of the buildings
2. Take action immediately to fix old structural work in the building before the bat breeding season so that there is minimal impact to the roosting site.

The actions outlined in this licence would not be detrimental to the maintenance of the populations of the species at a favourable conservation status. This mitigation strategy will prevent death or injury to any bats, and ensure that displaced bats have alternative roosting opportunities. Even if bats were harmed, it would not have a negative effect on their conservation status, because all Irish bat species are considered to be of good conservation status Red List of Terrestrial Mammals (Marnell et al. 2019). Therefore, even if the bat roosts at the site were harmed (in a worst case scenario), it would not have a significant negative effect on the conservation status of any species

Having weighed the possible solutions to solve the applicant’s problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Test 3: Impact of a derogation on conservation status of the species

Please tick the following where it applies and add a comment below to support the recommendation:

The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range.	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)

Hazelwood Demesne provides roosting for several bat species including pipistrelles, brown long-eared and *Myotis* species. However, no significant summer (maternity) roost or large hibernation roost was recorded during the bat surveys. Individual bats and minor roosts are present in various buildings and walls around the estate at various times of the year. Comprehensive surveys have been completed and a detailed programme of mitigation measures has been drawn up. The proposed mitigation measures include restrictive timing of works in certain areas, the retention and improvement of bat access to roosting features post-works, the erection of bat boxes around the estate together with a sympathetic lighting and landscaping plan.

With the full implementation of these mitigation measures I am satisfied that the derogation would not be detrimental to the maintenance of the populations of the bat species in question at a favourable conservation status in their natural range

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Derogation decision

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

Tick box where appropriate:

There is no satisfactory alternative

and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats

(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,

(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,

(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or

(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.

OR This application has been refused as one or more of the conditions set out above have not been met

The following conditions should be attached to the derogation:

- 1.
- 2.
- 3.
- 4.

[add additional conditions where required]

Signed: .
