

### Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **Southview, Coolick, Kilcummin, County Kerry, V93 E9P5** for **Julie Anne Rodgers**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time.
4. The mitigation measures outlined in the application report (**Supporting Information for an Application for Derogation Under Regulation 54 & 54A of the European Communities (Birds and Natural Habitats) Regulations 2011 to Carry Out Renovation Works on a Lesser Horseshoe Bat and Common Pipistrelle bat Roost, Coolick, Co. Kerry**) together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **1<sup>st</sup> January – 31<sup>st</sup> March 2026, inclusive**.
6. The works will be supervised by a qualified bat ecologist.
7. If this derogation addresses works that are subject of a planning application, no such works permitted under this derogation can occur until planning permission is granted.
8. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
9. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
10. The local **NPWS District Conservation Officer – Daniel Buckley**, [daniel.buckley@npws.gov.ie](mailto:daniel.buckley@npws.gov.ie), must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
11. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns form and must be submitted to the NPWS **within four weeks of the expiry date of this derogation**. Included with the Returns form, a report will also be submitted to [wildlife.reports@npws.gov.ie](mailto:wildlife.reports@npws.gov.ie) detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return.**

### Derogation Assessment

**Name of Applicant: Julie Anne Rodgers**

**Location/Name of Project: Southview, Coolick, V93 E9P5**

**Tick the following prohibition as chosen on the application:**

(a) Deliberately capture or kill any specimen of the relevant species in the wild	<input type="checkbox"/>
(b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration	<input checked="" type="checkbox"/>
(c) Deliberately take or destroy eggs of the relevant species in the wild	<input type="checkbox"/>
(d) Damage or destroy a breeding or resting place of such an animal, or	<input type="checkbox"/>
(e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive.	<input type="checkbox"/>
(a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or	<input type="checkbox"/>
(b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive.	<input type="checkbox"/>

#### Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason the applicant claims should be applied to the derogation

(a) In the interests of protecting wild flora and fauna and conserving natural habitats,	<input type="checkbox"/>
(b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property	<input type="checkbox"/>
(c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	<input checked="" type="checkbox"/>
(d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or	<input type="checkbox"/>
(e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	<input type="checkbox"/>

ii. Test 1: Conclusion

Please tick the following where it applies:

There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:**

| The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) *'in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment'* as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C. As outlined on page three of the accompanying report, the derogation is required to assist with proposed works located in Coolick, Co. Kerry. The objective of the works is to carry out renovation works on a derelict cottage to enable its re-use as a residential dwelling. The provision of housing in Ireland is at a critical juncture and the public interest of same can be balanced against the conservation aims of the Directive.

The applicants have provided evidence as to the nature and scale of the public interest including those of a social or economic nature for the proposed works and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2. |

**Test 2: Absence of a satisfactory alternative**

Please tick the following where it applies and add a comment below to support the recommendation:

The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):**

The documentation submitted by the applicant has been reviewed, including the evidence for alternative solutions. The purpose of the derogation is to allow the following activity to take place: The removal of the existing roof and ceiling, and the installation of a new roof and ceiling. It is proposed to carry out renovation works outside the maternity period when bats will not be using the building or are present in very low numbers (October-March inclusive).

Alternative 1 [Do nothing. *NPWS regional staff are in agreement with the bat report that this would not be a satisfactory alternative* as the building will continue to fall into disrepair and will no longer be suitable for as a roost for bats.

Alternative 2. [Construct an alternative roost. *NPWS regional staff are in agreement with the bat report that this would not be a satisfactory alternative* constructing a new roost would be of considerable expense for the owner of the property and is unnecessary, as she is willing to accommodate the bats in the attic of the house post-renovation.

The applicant has provided satisfactory evidence that alternative solutions have clearly been considered. As outlined on page(s) 10-11 of the accompanying report. Based on the assessment of the application documentation, it is regarded that the applicant has considered all available alternative solutions and at this time no other alternative solutions are apparent.

Having weighed the possible solutions to solve the applicant’s problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

**Test 3: Impact of a derogation on conservation status of the species**

Please tick the following where it applies and add a comment below to support the recommendation:

The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range.	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

**Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)**

The building in question supports a small number (c10) of common pipistrelles and a small number (c5) of lesser horseshoe bats (LHBs). Common pipistrelles are widespread and abundant in Ireland and are in favourable conservation status. The species is also very adaptable and the proposed mitigation should ensure that the attic space remains accessible and suitable for the roosting of this species.

LHBs are not common and are restricted to the six western counties from Mayo to Cork. Their current status is unfavourable – inadequate. The proposed mitigation would see a new dedicated access point provided for the bats into a dedicated attic area, removed from human disturbance. Although we have limited examples of LHBs co-habiting with humans, the details of the current case suggest that the proposed mitigation can work. This approach is supported by local NPWS staff and the likelihood of success will be enhanced through the ongoing involvement of those staff in supervising the works and monitoring bat numbers over the coming years. On this basis I am satisfied that the proposed works can proceed without having a significant negative impact on the conservation status of the bats in the area

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

**Derogation decision**

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

**Tick box where appropriate:**

There is no satisfactory alternative

and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats

(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,

(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,

(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or

(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.

**OR This application has been refused as one or more of the conditions set out above have not been met**

The following conditions should be attached to the derogation:

1. { }
2. { }
3. { }
4. { }

[add additional conditions where required]
