Derogation Number
DER-BAT-2026-319

EUROPEAN COMMUNITIES (BIRDS AND NATURAL HABITATS) REGULATIONS, 2011 (S.I. No 477 of 2011)

DEROGATION

Granted under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations 2011, hereinafter referred to as "the Habitats Regulations".

The Minister for Housing, Local Government & Heritage, in exercise of the powers conferred on him by Regulation 54 of the Habitats Regulations hereby grants to **Kathryn Murphy** of **Gortnakilly, Kilcrohane, Bantry, County Cork, P75 YE82** a derogation. It is stated that this derogation is issued:

A. In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment
B. As there is no satisfactory alternative, and the action authorised by this derogation will not be detrimental to the maintenance of the population of **bats** referred to below at a favourable conservation status in their natural range.

This derogation authorises the following:

1. Roost disturbance
2. Actions authorised within the derogation

The derogation is issued in respect of the following **bat species**:

- **Soprano Pipistrelle** **Pipistrellus Pygmaeus**

Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **Gortnakilly, Kilcrohane, Bantry, County Cork, P75 YE82** for **Kathryn Murphy**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time. In addition, the Minister reserves the right to revoke the derogation where updated information indicates that the basis upon which the derogation was granted has materially changed.
4. The mitigation measures outlined in the application report **(Report in support of Derogation Licence Application Proposed Development, Gortnakilly, Kilcrohane, Bantry, Co. Cork)** together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **1st November 2026 – 1st November 2027, inclusive.**
6. The works will be supervised by bat ecologist(s): **Carl Dixon**
7. The derogation does not provide consent to proceed with any works that may also be subject to another approval (for example, planning permission).
8. The derogation is based upon information provided in the application. Where this information may cease to be accurate due to the passage of time or changes to the circumstances giving rise to the need for the derogation, the derogation holder is responsible for notifying the NPWS.
9. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
10. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
11. The local **NPWS Conservation Ranger – Patrick Graham,** patrick.graham@npws.gov.ie**,** must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
12. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns Form and must be submitted to the NPWS within **four weeks of the expiry of the derogation or the 31st January each year**, should the derogation run for longer than one calendar year. Additionally a report will also be submitted detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return** and should be submitted to wildlife.reports@npws.gov.ie

For the Minister for Housing, Local Government & Heritage

Fiona O' Mahony.

(an officer authorised by the Minister to sign on his behalf)

06 October 2026

Any query in relation to this derogation should be sent to reg54derogations@npws.gov.ie

National Parks & Wildlife Service LICENCE

Derogation Assessment

Name of Applicant: Kathryn Murphy

Location/Name of Project: Gortnakilly, Kilcrohane, Bantry, County Cork, P75 YE82

Tick the following prohibition as chosen on the application:

(a) Deliberately capture or kill any specimen of the relevant species in the wild	☐
(b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration	☐
(c) Deliberately take or destroy eggs of the relevant species in the wild	☐
(d) Damage or destroy a breeding or resting place of such an animal, or	☒
(e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive.	☐
(a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or	☐
(b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive.	☐

Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason <u>the applicant claims</u> should be applied to the derogation

(a) In the interests of protecting wild flora and fauna and conserving natural habitats,	☐
(b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property	☐
(c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	☒
(d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or	☐
(e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	☐

ii. Test 1: Conclusion

Please tick the following where it applies:

There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity:	Yes	☒
	No	☐

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:

The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) '*in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment*' as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C. As outlined on page four of the accompanying report titled "Report in support of Derogation Licence Application" a derogation is required to facilitate proposed works at a site at Gortnakilly, Kilcrohane, Co. Cork.
The objective of the works involves the demolition and alteration of a number of structures including the refurbishment of the farmhouse to fulfil a local housing need. The report further outlines the proposed development falls under the Cork County Development Plan which encourages "the redevelopment/refurbishment of existing housing stock particularly vernacular dwelling". The development is also compatible with "environmental and heritage protection" provides sensitive restoration and prevents the house from falling into dereliction.

The applicants have provided evidence as to the nature and scale of the public interest including those of a social or economic nature for the proposed works and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2.

Test 2: Absence of a satisfactory alternative

Please tick the following where it applies and add a comment below to support the recommendation:

The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative:	Yes	☒
	No	☐

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):

The documentation submitted by the applicant has been reviewed, including the evidence for alternative solutions.

The purpose of the derogation is to allow the following activity to take place: External fascia/flashing housing a small day roost for Soprano pipistrelle will be removed during the restoration of the farmhouse.
The works are necessary to address deterioration of the building fabric, prevent further water ingress and damage, and facilitate the continued/renewed residential use of the farmhouse.
The proposed restoration of the farmhouse fulfills a housing need in this area in line with the objectives of the county development plan i.e. overriding public interest of a social nature.

Alternative solutions considered.

Do-nothing
The do-nothing scenario would be not refurbishing the farmhouse. The refurbishment works are necessary to address deterioration of the building fabric, prevent further water ingress and damage, and facilitate the continued/renewed residential use of the farmhouse. Retention of the affected fascia/flashing in their present condition would not provide a durable or practicable solution. In the absence of development the farmhouse would continue to deteriorate over
time. The existing facia/flashing (where the bat roost was recorded) is damaged. This roost will not provide a roost in the long-term as it continues to deteriorate. The do-nothing scenario will not support a bat roost in the long-term.

Alternative design
The only design option which would sustain the roost site is to not disturb the fascia and upgrade the remainder of the house. The replacement of finishes, windows, doors and the general thermal upgrade will need to be addressed. Retaining this fascia and flashing is not long-term solution as the fascia (and farmhouse) will continue to fall into disrepair from ingress of rain and wind in the absence of works.

Demolish the building.
As outlined above, the site has been identified as suitable for sensitive restoration to provide housing. The demolition of the building would also remove the roost site. The restoration of the building to provide housing and replacement bat habitat is the only satisfactory alternative.

NPWS regional staff are in agreement with the applicant that the do nothing or demolish is not satisfactory as the building will continue to fall into disrepair from ingress of rain and wind if nothing is done. Renovation works are required to prevent the fall into disrepair from ingress of rain and wind in the absence of works.
The applicant [has] provided satisfactory evidence that alternative solutions have clearly been considered. As outlined on the report. Based on the assessment of the application documentation, it is regarded that the applicant has considered all available alternative solutions and at this time no other alternative solutions are apparent.

Having weighed the possible solutions to solve the applicant's problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Test 3: Impact of a derogation on conservation status of the species

Please tick the following where it applies and add a comment below to support the recommendation:

The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range.	Yes	☒
	No	☐

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)

A small soprano pipistrelle roost is present within one of the buildings on site. This species is widespread and abundant in Ireland and is in favourable conservation status. This species is also adaptable and quick to occupy new roosting features.
Suitable and proportionate mitigation has been proposed, including the erection of bat boxes and sensitive lighting.
Providing these mitigation measures are implemented, I am satisfied that the works will not be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Derogation decision

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

Tick box where appropriate:

There is no satisfactory alternative	☒
and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.	☒

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats	☐
(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,	☐
(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	☒
(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or	☐
(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	☐
OR **This application has been refused as one or more of the conditions set out above have not been met**	☐

The following conditions should be attached to the derogation:

1.
2.
3.
4.

[add additional conditions where required]

Signed: Date: October 6, 2026

Position: Ecologist
