

Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **Dundalk Stadium, Racecourse Road, Dundalk, County Louth, A91 FFP3** for **Sean McGreevy**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time. In addition, the Minister reserves the right to revoke the derogation where updated information indicates that the basis upon which the derogation was granted has materially changed.
4. The mitigation measures outlined in the application report (**Bat Fauna Impact Assessment for a development at Dundalk Stadium, Racecourse Road, Dundalk, Co. Louth.**) together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **1st January – 31st December 2027, inclusive**
6. The works will be supervised by bat ecologist(s): **Bryan Deegan**
7. The derogation does not provide consent to proceed with any works that may also be subject to another approval (for example, planning permission).
8. The derogation is based upon information provided in the application. Where this information may cease to be accurate due to the passage of time or changes to the circumstances giving rise to the need for the derogation, the derogation holder is responsible for notifying the NPWS.
9. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
10. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
11. The local **NPWS Conservation Ranger – Jennifer Lynch**, jennifer.lynch@npws.gov.ie, must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
12. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns Form and must be submitted to the NPWS within **four weeks of the expiry of the derogation or the 31st January each year**, should the derogation run for longer than one calendar year. Additionally a report will also be submitted detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return** and should be submitted to wildlife.reports@npws.gov.ie

Derogation Assessment

Name of Applicant: Sean McGreevy

Location/Name of Project: Dundalk Stadium, County Louth

Tick the following prohibition as chosen on the application:

| | |
|---|-------------------------------------|
| (a) Deliberately capture or kill any specimen of the relevant species in the wild | <input type="checkbox"/> |
| (b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration | <input type="checkbox"/> |
| (c) Deliberately take or destroy eggs of the relevant species in the wild | <input type="checkbox"/> |
| (d) Damage or destroy a breeding or resting place of such an animal, or | <input checked="" type="checkbox"/> |
| (e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive. | <input type="checkbox"/> |
| | |
| (a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or | <input type="checkbox"/> |
| (b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive. | <input type="checkbox"/> |

Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason the applicant claims should be applied to the derogation

| | |
|---|-------------------------------------|
| (a) In the interests of protecting wild flora and fauna and conserving natural habitats, | <input type="checkbox"/> |
| (b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property | <input type="checkbox"/> |
| (c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment, | <input checked="" type="checkbox"/> |
| (d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or | <input type="checkbox"/> |
| (e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule. | <input type="checkbox"/> |

ii. Test 1: Conclusion

Please tick the following where it applies:

| | | |
|--|-----|-------------------------------------|
| There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity: | Yes | <input checked="" type="checkbox"/> |
| | No | <input type="checkbox"/> |

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:

The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) *'in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment'* as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C. As outlined on page three of the accompanying report, the derogation is required to assist with proposed works at Dundalk Stadium, Racecourse Road, Dundalk, Co.Louth. The objective of the works involves the restoration and reuse of a semi derelict structure on the site to provide eight residential dwellings alongside the construction of 38 single storey dwellings and associated works.

The report further outlines that these newly constructed units will provide retirement and care-oriented accommodation in the form of a retirement village and social and economic benefits through employment and community investment.

The applicants have provided evidence as to the nature and scale of the public interest including those of a social or economic nature for the proposed works and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2. |

Test 2: Absence of a satisfactory alternative

Please tick the following where it applies and add a comment below to support the recommendation:

| | | |
|---|-----|-------------------------------------|
| The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative: | Yes | <input checked="" type="checkbox"/> |
| | No | <input type="checkbox"/> |

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):

The documentation submitted by the applicant has been reviewed, including evidence for alternative solutions. The purpose of the derogation is to allow the following activity to take place: the restoration and reuse of a semi derelict structure on the site to provide eight residential dwellings alongside the construction of 38 single storey dwellings and associated works.

The alternative solutions considered by the applicant are:

1. **“Do Nothing” scenario:** In the do-nothing scenario, the structures are deteriorating due to ongoing dampness, water ingress, roof damage, and partial collapse. Their condition will continue to decline, ultimately leading to the loss of the existing roost features as the building becomes structurally unsound. This option would also fail to deliver urgently required housing and would undermine the social and economic benefits associated with the project.”
2. **Avoiding the roost entirely:** It is not feasible to redesign the refurbishment in a way that retains the roosting areas in situ. The works required to make the buildings safe and habitable including roof replacement, securing unstable walls, and addressing significant water damage inevitably affect the areas currently used by bats. Retaining these features within a functioning residential development is not technically or structurally achievable.
3. **Alternative Site Location:** The project specifically involves the restoration and reuse of the existing stables building. Relocating the development to another part of the site would not meet the project objective of bringing a historic structure back into functional use. It would also fail to address the immediate structural risks posed by the deteriorating building and would not prevent the eventual loss of bat roosting opportunities resulting from unchecked decay.

The applicant has provided satisfactory evidence that alternative solutions have clearly been considered. As outlined on page 13 of the accompanying report “Supporting Bat derogation license for Proposed Development at Dundalk Stadium, Racecourse Road, Dundalk, Co. Louth”.

Based on the assessment of the application documentation, it is regarded that the applicant has considered all available alternative solutions and at this time no other alternative solutions are apparent.

Having weighed the possible solutions to solve the applicant’s problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Test 3: Impact of a derogation on conservation status of the species

Please tick the following where it applies and add a comment below to support the recommendation:

| | | |
|--|-----|-------------------------------------|
| The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range. | Yes | <input checked="" type="checkbox"/> |
| | No | <input type="checkbox"/> |

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)

Surveys indicate that one of the buildings on site is likely to support a small day roost of common pipistrelles. Common pipistrelle is widespread and abundant throughout Ireland. The national population is estimated at more than 1 million individuals and increasing. This species is also highly adaptable, in terms of both its foraging and roosting habitats, with no identified pressures or threats affecting their conservation status. Overall prospects for the species' range, population, and habitat are considered favourable.

A number of bat boxes will be erected on site to compensate for the loss of any minor roost on site.

The proposed development will not have any significant impact on the conservation status of this species in the area

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Derogation decision

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

Tick box where appropriate:

There is no satisfactory alternative

and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats

(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,

(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,

(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or

(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.

OR This application has been refused as one or more of the conditions set out above have not been met

The following conditions should be attached to the derogation:

1. | |
2. | |
3. | |
4. | |

[add additional conditions where required]

Signed: .

Date: January 13, 2026
