**Derogation Number
DER-BAT-2026-48**

**EUROPEAN COMMUNITIES (BIRDS AND NATURAL HABITATS) REGULATIONS, 2011
(S.I. No 477 of 2011)**

DEROGATION

Granted under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations 2011, hereinafter referred to as “the Habitats Regulations”.

The Minister for Housing, Local Government and Heritage (hereinafter referred to as “the Minister”), in exercise of the powers conferred on him by Regulation 54 of the Habitats Regulations hereby grants a derogation to **Arthur Moynihan of Bord na Mona Powergen Limited, Bord na Mona, Main Street, Newbridge, County Kildare, W12 XR59**. It is stated that this derogation is issued:

- A. In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment
- B. As there is no satisfactory alternative, and the action authorised by this derogation will not be detrimental to the maintenance of the population of **bats** referred to below at a favourable conservation status in their natural range.

This derogation authorises the following:

1. Roost disturbance
2. Actions authorised within the derogation

The derogation is issued in respect of the following **bat species**:

- **Brown Long-Eared Bat** **Plecotus Auritus**
- **Common Pipistrelle** **Pipistrellus Pipistrellus**
- **Soprano Pipistrelle** **Pipistrellus Pygmaeus**

Terms and Conditions

1. This derogation is granted solely to allow the activities specified in connection with the works located at **Bord na Mona Derrygreenagh Works, Derrygreenagh, Rochfortbridge, County Offaly, N91 YX30 for Arthur Moynihan**
2. All activities authorised by this derogation, and all equipment used in connection herewith, shall be carried out, constructed and maintained (as the case may be) so as to avoid unnecessary injury or distress to any species of **BAT**. Anything done other than in accordance with the terms of this derogation may constitute an offence
3. This derogation may be modified or revoked, for stated reasons, at any time. In addition, the Minister reserves the right to revoke the derogation where updated information indicates that the basis upon which the derogation was granted has materially changed.
4. The mitigation measures outlined in the application report (**Bat Derogation Licence Application Supporting Information**) together with any changes or clarification agreed in correspondence between NPWS and the agent or applicant, are to be carried out. Strict adherence must be paid to all the proposed measures in the application.
5. The actions which this derogation authorise shall be completed between **22nd January – 31st December 2026, inclusive**.
6. The works will be supervised by bat ecologist(s): **Emma Boston**
7. The derogation does not provide consent to proceed with any works that may also be subject to another approval (for example, planning permission).
8. The derogation is based upon information provided in the application. Where this information may cease to be accurate due to the passage of time or changes to the circumstances giving rise to the need for the derogation, the derogation holder is responsible for notifying the NPWS.
9. If this derogation expires prior to works permitted under this derogation commencing, a new application must be sought in advance, including the provision of any updated data or reports.
10. This derogation shall be produced for inspection on a request being made on that behalf by a member of An Garda Síochána or an authorised NPWS officer appointed under Regulation 4 of the Habitats Regulations.
11. The local **NPWS Conservation Ranger – Colm Malone**, colm.malone@npws.gov.ie, must be contacted prior to the commencement of any activity, and if bats are detected on site during the course of the work, under the terms of this derogation.
12. On completion of the actions which this derogation authorises, all recordings of bat species affected will be made using the standardised Returns Form and must be submitted to the NPWS within **four weeks of the expiry of the derogation or the 31st January each year**, should the derogation run for longer than one calendar year. Additionally a report will also be submitted detailing results of works and success of mitigation. **Both documents must be submitted to constitute a derogation return** and should be submitted to wildlife.reports@npws.gov.ie

Derogation Assessment

Name of Applicant: Arthur Moynihan

Location/Name of Project: Bord na Mona Derrygreenagh Works, County Offaly, N91 XY30

Tick the following prohibition as chosen on the application:

(a) Deliberately capture or kill any specimen of the relevant species in the wild	<input type="checkbox"/>
(b) Deliberately disturb these species particularly during the period of breeding, rearing, hibernation and migration	<input checked="" type="checkbox"/>
(c) Deliberately take or destroy eggs of the relevant species in the wild	<input type="checkbox"/>
(d) Damage or destroy a breeding or resting place of such an animal, or	<input type="checkbox"/>
(e) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of the relevant species taken in the wild, other than those taken legally as referred to in Article 12(2) of the Habitats Directive.	<input type="checkbox"/>
(a) Deliberately pick, collect, cut, uproot or destroy any specimen of these species in the wild, or	<input type="checkbox"/>
(b) Keep, transport, sell, exchange, offer for sale or offer for exchange any specimen of these species taken in the wild, other than those taken legally as referred to in Article 13(1)(b) of the Habitats Directive.	<input type="checkbox"/>

Test 1: A reason(s) listed in Regulation 54 (a)-(e) applies to the proposed activity

i. Tick which reason the applicant claims should be applied to the derogation

(a) In the interests of protecting wild flora and fauna and conserving natural habitats,	<input type="checkbox"/>
(b) To prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property	<input type="checkbox"/>
(c) In the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,	<input checked="" type="checkbox"/>
(d) For the purpose of research and education, of re-populating and re-introducing these species and for the breeding operations necessary for these purposes, including artificial propagation of plants, or	<input type="checkbox"/>
(e) To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.	<input type="checkbox"/>

ii. Test 1: Conclusion

Please tick the following where it applies:

There is a valid reason(s) listed in Regulation 54 (a)-(e) which applies to the proposed activity:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion:

The application form and associated documentation provided by the applicant has been reviewed in full. The application relies on regulation 54(2)(c) *‘in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment’* as the reason chosen for a derogation that they believe applies to the proposed activity.

In the detail provided, it is clear that the applicants are relying on the imperative reasons of overriding public interest, including those of a social or economic nature aspect of Reason C. As outlined on page three of the accompanying report, a derogation is required to assist with proposed works at an identified site within a subset of the Derrygreenagh Bog Group in Co. Offaly.

The objective of these works involves the demolition of a number of structures on the site to facilitate the construction of both a Combined Cycle Gas Turbine unit and an Open Cycle Gas Turbine unit plus grid connections including substations and associated buildings. The report further outlines on page 15 that the development “comprises strategic power generation and distribution infrastructure that is being delivered in the public interest - to ensure security of electricity supply and support renewable electricity generation.” and is recognised by An Coimisiún Pleanála as a “strategic infrastructure development”. To qualify as this type of development, it must satisfy a number of conditions including that it “be of strategic economic or social importance to the State”

The applicants have provided evidence as to the nature and scale of the public interest including those of a social or economic nature for the proposed works and the proposed activity is necessary to achieve these overall objectives. Based on the above this application has passed Test 1 and can now proceed to Test 2 |

Test 2: Absence of a satisfactory alternative

Please tick the following where it applies and add a comment below to support the recommendation:

The applicant has provided satisfactory evidence that alternative solutions have been considered and have given reasons why the proposed approach is the only satisfactory alternative:	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion (If you wish to add additional conditions please complete pg. 6):

The documentation submitted by the applicant has been reviewed, including the evidence for alternative solutions.

The purpose of the derogation is to allow the following activity to take place: The renovation of ESB buildings to facilitate Combined Cycle Gas Turbine (CCGT) unit and an Open Cycle Gas Turbine (OCGT) unit.

The specific situation that needs to be addressed is: The buildings are currently confirmed as a bat roosts and a derogation is needed to carry out expansion to Green energy which is in the National Public interest.

The alternative solutions suggested by the applicant are:

- “Do-Nothing” scenario – If the buildings are not demolished then the proposed development will not deliver on the strategic power generation and distribution infrastructure to ensure security of electricity supply and support renewable electricity generation as outlined. The Proposed Development could not be constructed or operated at this location without the works for which a derogation is required.
- “Alternative Location” - The Proposed Development site is a brownfield location within the control of the Applicant and close to key infrastructure including electricity and gas networks and the national road network. It has been determined to be the only feasible option. There is no alternative location for the project.

The applicant has provided satisfactory evidence that alternative solutions have clearly been considered as outlined on page 16 of the accompanying report. Based on the assessment of the application documentation, it is regarded that the applicant has considered all available alternative solutions and at this time no other alternative solutions are apparent.

Having weighed the possible solutions to solve the applicant’s problem against the effects of a derogation on the species concerned, it is concluded that the application has passed Test 2 and can proceed to Test 3.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Test 3: Impact of a derogation on conservation status of the species

Please tick the following where it applies and add a comment below to support the recommendation:

The derogation would NOT be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range.	Yes	<input checked="" type="checkbox"/>
	No	<input type="checkbox"/>

Please outline your analysis below and state how the applicant has provided evidence to support your conclusion. (If you wish to add additional conditions please complete pg. 6)

A maternity roost of soprano pipistrelles, plus minor roosts of soprano pipistrelle, brown long-eared bat and common pipistrelle will be directly impacted by demolition on the proposed Power Plant Area site.

Each of these species is widespread in Ireland and in favourable conservation status. Pipistrelles are abundant.

Proportionate and suitable mitigation measures are planned; the proposed development includes provision for compensatory roosting habitat in the form of multiple bat boxes across the wider site, as well as timing restrictions and the implementation of a Habitat Management Plan to protect and enhance existing foraging and commuting routes.

On this basis I am satisfied that the derogation would not be detrimental to the maintenance of the populations of the species in question at a favourable conservation status in their natural range

If the answer above is Yes then the derogation may be granted, providing Tests 1 and 2 have also been met.

Upon completion of your assessment, please return this Recommendation to WLU to continue the application process.

Derogation decision

The application for a derogation under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations, 2011 (S.I. 477 of 2011), as amended, has been assessed by officials in the Department and the following decision has been made:

Tick box where appropriate:

There is no satisfactory alternative

and the derogation is not detrimental to the maintenance of the populations of the species to which the Habitats Directive relates at a favourable conservation status in their natural range.

Therefore, a derogation may be granted to the applicant, since it is—

(a) in the interests of protecting wild fauna and flora and conserving natural habitats

(b) to prevent serious damage, in particular to crops, livestock, forests, fisheries and water and other types of property,

(c) in the interests of public health and public safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment,

(d) for the purpose of research and education, of repopulating and re-introducing these species and for the breeding operations necessary for these purposes, including the artificial propagation of plants, or

(e) to allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking or keeping of certain specimens of the species to the extent specified therein, which are referred to in the First Schedule.

OR This application has been refused as one or more of the conditions set out above have not been met

The following conditions should be attached to the derogation:

1. A final report after the work is completed to be submitted to NPWS
- 2.
- 3.
- 4.

[add additional conditions where required]
