I am involved with Dublin Bat Group and under the mentorship of Colm Clarke and Paul Scott, licensed bat handlers and members of Dublin Bat Group. I am being trained by them as they survey known bat roosts and we are catching a small percentage of bats at these roosts to take biometrics such as sex, weight, species, size. This information is then given to Bat Conservation Ireland and National Biodiversity Data Centre and thus used in the Article 17 conservation status reports. The numbers of bats are unknown at the start of the season as it depends on weather, availability of mentors, accessibility to roosts.

7. **Species of Plant:** Please indicate which species is affected by the proposed works:

- Killarney Fern
- Slender Naiad
- Marsh Saxifrage
