

What permits are required in the EU?

Annex	Species listed	Requirements for trade to or from outside the EU	Requirements for trade within the EU
A	CITES Appendix I species and some native species that are protected within the EU	Permits are required and trade in wild specimens is restricted.	Trade in Annex A species is strictly controlled; EC certificates are needed for any commercial use.
B	Most CITES Appendix II species and some non-CITES species	Permits are required.	No permits or certificates are needed.
C	Most CITES Appendix III species	Permits or certificates of origin are required.	No permits or certificates are needed.
D	Some Appendix III species and some non-CITES species	Self notification forms are required. No permits are required for (re-)exports unless the species is listed in Appendix III of CITES.	No permits or certificates are needed.
