

**Addition of Bottlenose Dolphin as a new Qualifying Interest
and the addition of an Activity Requiring Consent to
St. John's Point Special Area of Conservation 000191
in County Donegal**

Ireland designates Special Areas of Conservation (SACs) in its inshore and offshore waters to protect marine habitats and species listed on Annex I and Annex II of the 1992 EU Habitats Directive.

The Minister has added Bottlenose Dolphin as a Qualifying Interest to St. John's Point SAC 000191 in County Donegal.

The full list of Qualifying Interests, including the newly added Bottlenose Dolphin, for St. John's Point SAC is as follows:

The addition of Bottlenose Dolphin to the list of Qualifying Interests has resulted in an additional activity (ARC 35) being added to the list of Activities Requiring Consent (ARCs) that apply to this site. The Minister has reason to believe that this activity may cause disturbance of and may impact on the conservation status of this species. Therefore, the Minister has issued a new Direction adding ARC 35 to the list of

ARCs that apply to this site and has directed that these activities cannot be carried out, caused or permitted to be carried out or continued to be carried out in the SAC, unless it is with the consent of the Minister.

It is an offence to contravene any Direction by carrying out any of the listed activities within the site unless the activity is carried out with the consent of the Minister or another statutory authority (in practice, such consent should be sought initially from the Department's National Parks and Wildlife Service <https://www.npws.ie/contact-us>).
