Other Site Characteristics

A medium sized marl lake, part of a series of similar lakes in the upper part of the Boyle River catchment. The lake has exposed stoney shores and some sheltered bays with sparse reedbed development. Surrounding lands are a mixture of pasture grassland, raised bog and commercial conifer plantation.

4.2 Quality and importance

A typical example of the small marl lakes in this region, with zonations of Chara beds, dependant on exposure and water depth, well demonstrated.

4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site
