1. SITE IDENTIFICATION

1.1 Type B	1.2 Site code IE0000609	Back to top
----------------------	-----------------------------------	-----------------------------

1.3 Site name

Lisduff Turlough SAC

1.4 First Compilation date 1995-08	1.5 Update date 2018-09
--	-----------------------------------

1.6 Respondent:

Name/Organisation: National Parks and Wildlife Service, Department of Culture, Heritage and the Gaeltacht
Address: 90 King Street North, Dublin 7, D07 N7CV, Ireland
Email: datadelivery@chg.gov.ie

Date site proposed as SCI:	1997-11
Date site confirmed as SCI:	No data
Date site designated as SAC:	2016-05
National legal reference of SAC designation:	267/2016

2. SITE LOCATION

2.1 Site-centre location [decimal degrees]:

B	A162	Tringa totanus		r	1	1	p		G	C	C	C	C
B	A142	Vanellus vanellus		w	250	250	i		G	C	B	C	B

- **Group:** A = Amphibians, B = Birds, F = Fish, I = Invertebrates, M = Mammals, P = Plants, R = Reptiles
- **S:** in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes
- **NP:** in case that a species is no longer present in the site enter: x (optional)
- **Type:** p = permanent, r = reproducing, c = concentration, w = wintering (for plant and non-migratory species use permanent)
- **Unit:** i = individuals, p = pairs or other units according to the Standard list of population units and codes in accordance with Article 12 and 17 reporting (see [reference portal](#))
- **Abundance categories (Cat.):** C = common, R = rare, V = very rare, P = present - to fill if data are deficient (DD) or in addition to population size information
- **Data quality:** G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation); VP = 'Very poor' (use this category only, if not even a rough estimation of the population size can be made, in this case the fields for population size can remain empty, but the field "Abundance categories" has to be filled in)

4. SITE DESCRIPTION

4.1 General site character

[Back to top](#)

Habitat class	% Cover
N14	12.0
N06	59.0
N10	29.0
Total Habitat Cover	100

Other Site Characteristics

Lisduff lies in a shallow basin among low hills of glacial drift and occasional rock outcrops (as on the north-east side). There is a semi-permanent inflow from the north-west arm and the site is relatively wet with good development of fen peat. Ground water is highly calcareous and there is precipitation of marl (CaCo₃). The site is highly oligotrophic and not much grazed.

4.2 Quality and importance

The turlough has a good zonation of oligotrophic vegetation which is unusual. It also is very little modified by

grazing or drainage and lies in a thinly populated area. It has more breeding waders (including dunlin) than other sites of comparable size and in winter supports a good diversity and population of wildfowl.

4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site

Negative Impacts			
Rank	Threats and pressures [code]	Pollution (optional) [code]	inside/outside [i o b]
L	A08		o
L	G05		b

Positive Impacts			
Rank	Activities, management [code]	Pollution (optional) [code]	inside/outside [i o b]
M	A04		b

Rank: H = high, M = medium, L = low

Pollution: N = Nitrogen input, P = Phosphor/Phosphate input, A = Acid input/acidification,

T = toxic inorganic chemicals, O = toxic organic chemicals, X = Mixed pollutions

i = inside, o = outside, b = both

4.5 Documentation

Goodwillie, R. & Fahy, E. (1974). A Preliminary Report on Areas of Scientific Interest in Co. Roscommon. Unpublished report for Roscommon County Council. An Foras Forbartha. Hutchinson, C. (1979). Ireland's Wetlands & their Birds. Irish Wildbird Conservancy, Dublin. Goodwillie, R.N. (1992). Turloughs over 10ha - Vegetation survey and evaluation. Unpublished report to National Parks and Wildlife Service. Sheppard, R. (1993). Irelands Wetland Wealth. Irish Wildbird Conservancy, Dublin.

6. SITE MANAGEMENT

6.2 Management Plan(s):

[Back to top](#)

An actual management plan does exist:
